LC HEAVY DUTY 'OVEN RACKS'

DOUBLE pan side-load (left) and SINGLE pan end-load (right)

DOUBLE pan rack with Screens

BUILT EXTRA STRONG / SMOOTH ROLLING / BUT LIGHTER IN WEIGHT FOR EASY HANDLING

The Major Canadian Super Market chains had tried and used every brand of Oven Rack on the market, and they were not happy!

The majority of the racks they had purchased did not last 5 years, and those that did were overpriced, overweight, and hard to maneuver.

We saw the need, and engineered our '**LC - Heavy Duty Oven Rack**' (back in 1993). Those first racks we built back then are still in full production use today!

We gave our clients a Top Quality Rack at a fair price - Good Value - and one by one they came to us.

Today, we now supply most of the major Super Market chains, from the state of Michigan to the Canadian East Coast, with our Oven Racks.

The old saying is still true: *"Better quality at a fair price - is always the best value"*

Are you tired of 'pushing and dragging' those old heavy racks?

It's time you treated yourself to our smooth rolling, easy to manoeuver Aluminum racks Super strong & yet light, easy to handle for the ladies. And they last, and last, and last...

Make the smart choice.... Buy Better Quality - at a Fair Price. You'll be glad you did!

Our Custom Manufacturing policy has made us versatile, benefiting our clients.
